I'm a Product Designer focused on closing the gap between design and development. I define the Information Architecture and User Flows, including their states and edge cases, so the team understands exactly how things will be built. For years, I led the design of confibud, an educational app for young people, end to end and side by side with the developers: we reviewed what they were building together, they walked me through the backend, and I made sure every screen was implemented as designed.

WORK EXPERIENCE

TelevisaUnivision & ViX · Product Designer · 2023–Present

- Grew young users by 35% and premium subscriptions in Mexico by 20% in six months by leading the end-to-end design of ViX Micro, a vertical short-form series experience.
- Attracted a new audience (64% new users, 82% aged 18–28) by grounding the concept in research with young users and turning 30 minute episodes into 1 minute chapters.
- Defined the information architecture, user flows and interaction model in 5 weeks with Product, Engineering and Production, using AI tools (v0, Maze) to prototype and validate with real users.
- Delivered 20 visual identities across 30 productions, including ViX World Cup 2026 and the 2024 Olympics, leading concepts, photo shoots and campaigns of 100+ pieces.

confibud · Co-founder & Product Designer · 2021–2024

- Reached 2,000+ users in two months by leading research, product definition and UX/UI of an educational mobile app from concept to MVP in 20 weeks.
- Drove 16 articles read per user by turning complex topics like taxes and personal finance into short, practical learning modules.
- Worked hand in hand with developers, from building the app and a custom CMS that published 45+ articles in two months to implementation reviews and ongoing iteration, making sure every screen shipped as designed.

2023, *Cimentación de Negocios* | Graphic Designer

- Redesigned the full brand (logo, stationery, social media and website) and created an identity manual still in use today.
- Trained 40 insurance advisors to use digital tools and designed client facing materials based on their feedback, including 6 editions of a weekly magazine.

TECHNICAL SKILLS

Product Design

Interaction Design · Accessibility · Visual Design · UX · Artificial Intelligence · Usability Testing · Journey Mapping · User Research · Design Systems · Wireframing · Prototyping

Tools & Platforms

Figma · Webflow · Framer ·Visual Studio Code · Github · Adobe CC Suite

AI-Assisted Workflows

Claude · Lovable · Figma Make · V0

Development

HTML · CSS
